

Git + Linux WORKSHOP

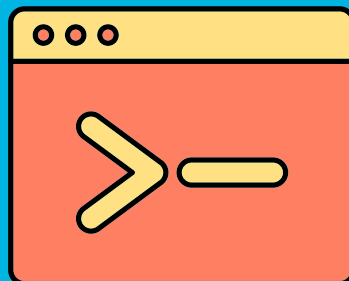

IEEE
UNIVERSITY OF HOUSTON

Presents...

A hands-on introduction to essential Linux commands, connecting to remote servers via SSH, and managing code with Git.

RSVP

You'll learn how to navigate the **terminal**, manage files, connect to **remote environments**, and **collaborate** using Git. Through practical exercises like **cloning repositories** and **pushing updates**, you'll build the skills needed to contribute confidently to any technical project. *All skill levels are welcome!*

Tuesday, October 14th | 6-8pm
Location: 102D | Food Provided
Bring your laptop!
